Program Unlocking AI in Education, 5 days

Málaga

WWW.IDEVELOPCOURSES.COM

Program Description

"Unlocking AI: Artificial Intelligence in Education" is a five-day intensive course aimed at empowering educators to effectively leverage AI technologies in teaching and learning. The program combines theoretical understanding with hands-on practice, enabling participants to independently create and implement AI-based resources. Through exploring various AI tools and engaging in practical tasks, educators will be equipped to transform traditional educational methods into dynamic, tech-enhanced learning environments.

Competences

Participants will:

- Grasp the fundamentals of AI, including its history and key concepts.
- Understand practical applications of AI in education (teaching, learning, assessment).
- Gain hands-on experience with the top AI text-generation tools.
- Learn to formulate effective prompts to achieve accurate and relevant AI outputs.
- Learn to distinguish between human and AI-generated text.
- Critically evaluate AI credibility, trust, and the accuracy of its outputs.
- Understand copyright and ethical implications of AI use in education.

Methodology

The course uses a blended approach combining:

- To provide theoretical knowledge and conceptual frameworks.
- Application of AI tools in real-world teaching tasks.
- To foster collaboration, critical thinking, and peer learning.
- Encouraging individual exploration and mastery of AI tools.
- Experimentation with AI platforms to ensure practical relevance.

Results

By the end of the course, participants will be able to:

- Demonstrate a strong foundational understanding of AI principles.
- Generate written and visual content using AI-powered tools.
- Animate images and add personalized text with creative flair.
- Use AI in platforms for interactive educational content.
- Design quizzes and slide presentations using AI tools.
- Utilize AI for video creation and lesson planning.
- Navigate AI tools for administrative efficiency.
- Understand copyright considerations for AI-generated content.
- Develop a personal AI-integrated project for use in their own educational context.

Day by day Planning

Day 1: Getting Started with AI Assistants

- 09:00-09:30 Welcome & Course Introduction
- 09:30-10:00 What is AI and How Does it Learn?
- 10:00-11:00 Meeting Your First AI Assistant
- 11:00-12:20 How to Talk to AI
- 12:20-13:10 What Else is Out There? - Resource: Comparison Table
- 13:10-14:00 Creating Images from Words

Day 2: Creating Your Own Materials with AI

- 09:00-10:00 Preparing class materials
- 10:00-11:00 Editing images with AI
- 11:00-12:20 Using AI in your web browser
- 12:20-13:10 Your research assistant
- 13:10-14:00 Creative AI & ethics

Day 3: Assessment and Creating Presentations

- 9:00-10:00 AI in assessment
- 10:00-11:00 AI tools for quizzes & detection
- 11:00-12:00 Making slide presentations with AI
- 12:00-13:00 Making videos with AI
- 13:00-14:00 Debate

Day 4: Planning Lessons and Managing Your Work

- 9:00-10:00 Lesson planning with AI
- 10:00-11:20 Working with your documents
- 11:20-12:30 AI in educational platforms
- 12:30-13:30 Making educational videos
- 13:30-14:00 Debate

DAY 5: Saving Time, Personal Projects, and a Look Ahead

- 9:00-10:00 AI for administrative tasks
- 10:00-11:00 Creating custom AI assistants
- 11:00-13:00 Personal project workshop
- 13:00-13:30 The future of education & discussion
- 13:30-14:00 Course conclusion & iDevelop closing
